

## PRESS RELEASE

### Kverneland Group develops a new app for IsoMatch Tellus- IsoMatch EasyControlApp

7-11-2013, Nieuw-Vennep, The Netherlands

*IsoMatch EasyControlApp*

**Kverneland Group is developing a new app for the IsoMatch Tellus – the IsoMatch EasyControlApp. The EasyControlApp allows the operator to benefit from the dual screen of the IsoMatch Tellus by controlling the machine from both screens. The user can choose which machine functions he would like to control from the second screen and can even decide on the position of the buttons.**

Some machines have many of functionalities. Scrolling through the different machine's options can be challenging. With the EasyControlApp it is just easy. The operator can assign functions to the second screen for easy access.

**Virtual joystick**

One of the preferred ways to control agricultural machinery is by using an ISOBUS auxiliary joystick. With such a device the user can assign machine auxiliary functions to the different movements and buttons of the joystick and then control the machine using the joystick. The EasyControlApp acts as a virtual Joystick. The buttons on the screen can be assigned to the different machine functions allowing the user to control more functions without scrolling through menu pages in an easier and simpler way.

**Dual screen is a huge advantage**

This app is unique and can be developed due to the fact that IsoMatch Tellus provides two active screens so that the user can control two processes at the same time, whether they are machine control or applications.

**IsoMatch Tellus – always something to look forward to**

Since the introduction of IsoMatch Tellus, Kverneland Group has introduced numerous new products and applications in the IsoMatch product range. Looking into the farmers needs, Kverneland Group is committed to keep offering new solutions and applications that make the work of the operator easier and will reduce costs.

For more information about IsoMatch products and apps please visit:

**Availability**

The IsoMatch EasyControlApp is free of charge and will be available as part of the IsoMatch Tellus software release in March 2014. It will be displayed at Agritechnica (12-16 November 2013), Kverneland Group, Hall 5, Stand D38.

\*\*\*

Kverneland Group is a leading international company developing, producing and distributing agricultural machinery and services. Strong focus on innovation allows us to provide a unique and broad product range with high quality. Kverneland Group offers an extensive package aimed at the professional farming community, covering the areas of soil preparation, seeding, forage and bale equipment, spreading, spraying and electronic solutions for agricultural tractors and machinery.
