

PRESS RELEASE

Kverneland Group launches a new service tool at Agritechnica - IsoMatch TopService

8-11-2013, Nieuw-Vennep, The Netherlands

IsoMatch TopService

Kverneland Group launches a new advanced service tool – the IsoMatchTopService. The IsoMatch TopService is a professional service application for Kverneland Group's electronic products to provide diagnostics and software update capabilities in addition to many other advanced features.

Easy-to-use

The TopService tool helps the dealer to diagnose and find solutions on the spot, faster and in a simpler way. The tool includes clear and user friendly design, multi-language support, Automatic downloads of software, release notes, documentation and many other features.

Remote Support

One of the most useful features which will be added in the near future is the remote support. With remote support one service personal in the office can support field base technicians field by viewing the terminal operation and controlling the tool remotely. Remote support has great benefits by saving traveling costs and leading to a better customer satisfaction.

Much more to come

The tool includes an automatic update feature which will assure that the user will have its latest version and could benefit from all its upcoming features such as the “easy machine setup” which will guide the user when setting up the machine for the first time. The tool's software updates are free of charge.

The perfect service kit

The tool is included in a new kit (IsoMatch TopServiceKIT). The kit includes all the necessary cables and accessories for diagnostics and software updating.

Availability

The IsoMatch TopService tool is now available for purchasing online at

www.isomatchshop.com (for dealers which already own the original “Flash kit”)

The complete service kit (IsoMatch TopServiceKIT) is now available for ordering through Kverneland Group sales companies.

The IsoMatch TopService will be presented at Agritechnica (12-16 November 2013), Kverneland Group, Hall 5, Stand D38.
